

Model Code : CU100

# TURN TABLE

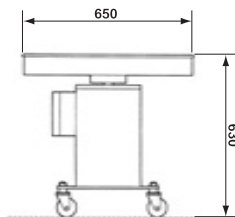

● This device has a rimmed rotary table, which provides coating around the products. ● It remains hygienic and rationalizes the production process, since the products made with the Flourless Encruster are supplied on the Turn Table directly. ● Poppy seeds, sesame seeds, bread crumb, cinnamon, cocoa, etc. can be used as coating material. ● Use this Turn Table to extend your product range. ● The rotational speed of the Turn Table is 3~3.5 r.p.m. ● This device can also be used to store products temporarily by setting it after the outfeed conveyor. ● It is equipped with casters for easy movement.
